Contracts Awarded for Big Guns and Mortars.

Commission of

BIDS WERE EXTREMELY LOW

Appropriation for This Purpose Will Provide Much More Ordnance Than Congress Anticipated - Contracts Go to the Big Steel Firms as Ex-

Secretary Lament yesterday directed the award of contracts under the proposals re-ceived by the department for the supply of forgings, gun and mortar carriages, etc., provided for by the recent appropriation for the armament of fortifications.

The award for twenty-one sets of 10 inch steel gun forgings and for one set of forgings for a type 16-inch gun was made to the Bethichem Iron Company of Penu-sylvania, the Midvale Steel Company reeiving the award for twenty-one sets of 12-inch forgings, Under the comparatively favorable terms

offered by these companies the department is enabled to obtain six powerful modern steel gans above the number that the appro priation was estimated to procure. The same two companies receive contracts for, respectively, twenty-two and fourteen sets of steel forgings for the 12-inch breechleading mortars. For finishing and assem-bling twenty sets of these forgings a contract is awarded to the Builders' Iron Foundry of Providence, R. I., the remaining ourteen sets going to the government gun factory at Watervliet.

FOR RIG MORTARS.

In addition a contract for thirty finished mortars is awarded to the Bethlehem Iron Company. Thus, it appears that instead of sixty mortars, the comparatively low price asked enables the War Department to procure sixty-six, all of which will be ready for use in our coast defenses within two

The 10-inch disappearing gun carriages are distributed as follows: Ten to the Southwark Foundry and Machine Company, to be delivered in nineteen months; eight to the Niles Tool Works Company, to be delivered in sixteen months; and twelve to the Bethiehem Iron Company, to be de-

livered in fifteen months.

The favorable blds received for the 12-inch mortar carriages enable the Department to procure sixty-seven of these carriages or eleven more than it was sup-posed the appropriation would provide. Of this number fifty-seven are awarded to Robert Poole's Sons Company of Baltimore, the last one to be delivered within sixteen and one-half months, while ten are to go to the Southwark Foundry and Machine Company, the last one to be de

livered within eighteen months. SHELL AND SHOT.

To the Midvale Steel Company is awarded a contract for neary 2,000 armor-piercing shot and deck-piercing and torpedo shells. An unusually large number of proposals were made to the department under the recent advertisements, and as a rule the terms were more favorable than in previous years. The hidy accepted were those which combine the lowest prices with the most rapid rates of delivery. The department thus procures, over and above those that it had estimated for, forgings for three tensix mortars and eleven mortar carriages A large part of this material will be de livered within one year from the dates of the contracts, and all of it in less than two
